DELIVERS UP TO 18
INCHES HG ROOTS
BLOWER SYSTEM

100 METRES HOSE
LENGTH CAPABILITY

The Vac Master 3060 vacuum platform is designed to be used with our Hydro Master vacuum tanks fitted onto a custom dual-axle trailer or a short- to mid-wheelbase light tray truck. The vacuum is generated by an exclusively designed positive displacement vacuum producer, delivering up to 18 inches Hg vacuum. The vacuum producer is designed for a continuous 24/ 7 duty cycle and operates at low noise levels due to the design of the 3 lobe system. The Vanguard® EFI BIG BLOCK! 998cc 40hp engine, with a custom-designed exhaust muffler, offers the lowest noise levels in a unit without an enclosure cabinet.
