

Gutter Master® 1020 PRO

✓ 330 CFM

✓ STEEL FRAME ON CASTORS

✓ 2.5 INCH INLET & VACUUM HOSE

✓ WET & DRY CAPABILITIES

Gutter Master® 1020 PRO Gutter Vacuum System

The Gutter Master® 1020 Pro gutter cleaning System is designed for the user who is looking for a compact and powerful electric vacuum cleaner system. Designed to provide safe cleaning of roof gutter channel from the ground using the optional supply ACS Gutter Master® carbon fiber vacuum poles.

Equipped with a triple Ametek vacuum motor head the Gutter Master® 1020 Pro will provide the performance you require to get the job done quickly. The reverse air flow system allows you to clean the filter first before emptying the waste container, no more removing the filter to clean it. The Gutter Master® 1020 Pro vacuum motor head is supplied with a 1 year warranty.
